for consumption and other diseases of the lue triumph.

COMMUNITY OF INVALIDS:—A theory of dis

The complete triumph.
To the Community of Invaling:—A theory of disease and of metical practice, however beautiful, cannot be of much interest to the invalid. What he wants is relief from his suferings and the means of cure. One single fact which shows him that he can be cured, is worth more to the sufferer than whofe volumes of learned speculations and ingenious theorizing, that leave him where they found him, to struggle, and suffer, and die. Such facts I present in the following correspondence. I sak the consumptive to read these letters exercilly, and then put the question to himself, whether he is not unwise to neglect or delay availing himself of a treatment as clearly demonstrated to be successful in the cure of positive, seated consumption! These letters are taken up almost at random, from the hundresi slying on my table, received from my patients in the course of regular correspondence and written without solicitation. I press them upon the attention of consumptives, because feel very desirous that they may be induced to adopt and employ a treatment which I know will be much less likely to disappoint their hopes of relief and cure than any other now any where practiced; and I do trust that such facts as these will not fail to influence the invalid who is looking for the means of relief from a disease so generally regarded as hopelessly fatal.

CARE OF ER. B. W. THOMPSON—TRUE CONSUMPTION CURED.

Mr. Thompson writes, directing an invalid friend to me, and then adds the following:—

Dr. S. S. FITCH—Dear six—Suffer me to trouble you with a few lines touching my own health. You doubtisse have forgotten my visit to your or press and the same than I was enabled to ascend the stairs to your reliens have forgotten my visit to your or press and the I was enabled to ascend the stairs to you or intensice the stair of the consumption, having been treated for it by various physicians in Hadison county. N. Y., without any good result, I represented the facts of my case to you, and requested that if, in your opision,

CASE OF J. L. FOWLER, A RESPECTABLE FARMER.

Dr. S. S. FITCH—Dear Six:—in the year 18st, 1 applied to you in confirmed consumption; there is no doubt about this more than a year, expecterating a talke master. I had cased blood to the extent of eight or ten ounces at a time; every little searchion would bring on blooding. The right ing was ulcerated. I was emaciated to a more skeleton; strength all rone, much pain in the right chest and shoulders; I had leader here in the pain of the right chest and shoulders; I had leader here and I put myelf under your care; you gave me shoulder braces, empporter and inhaling tube, with medicines, and I entered upon the treatment with but little hope of benefit. But now I bless the kind Providence who directed me to you. I soon began graduily to much, the pain in the me to you. I soon began graduily to much, the pain in the strong, and now for six years I have enjoyed health. I am confident that your remedies and treatment saved my life. The supporter, shoulder braces and inhaling tube are perfectly invaluable. I regard your plan of treasing consumptions being demonstrated in my case, to be effectual in its disease of the lungs. If the doubling will write to or call on me, I will convince them that what I say is true. Accept my leartful thanks for what you have does for me. Yours, respectivily.
